Personal

Skilled PHP and JavaScript web developer with a passion for creating elegant and user-friendly websites and web applications. Proficient in PHP frameworks such as Laravel and CodeIgniter, with experience using JavaScript meta-frameworks NextJS and Sveltekit.
With excellent problem-solving skills and an ability to quickly pick up new web technologies, I can confidently tackle any project and deliver outstanding results that that exceed expectations.

Experience

Developer @EMG Sep 2022 - Dec 2022

- Assigned with the responsibility of reconstructing the crew time tracking portal on the Laravel framework, in order to enhance security measures, facilitate seamless incorporation of future functionalities, and improve the system architecture.
- Write Modern, performant and maintainable PHP and TypeScript code with clear documentation.
- Implement Integration with multiple SQL databases, Redis caching, and worker processes hosted on Heroku.
- Coordinate with other departments of the business to ensure smooth operation of their web services.
- Improve API and SQL performance and efficiency to reduce response times.

Junior Developer @BFI July 2021 - Sep 2022

- Develop and maintain code for a diverse array of clients primarily using PHP, Linux, MySQL, HTML, CSS and JavaScript.
- Provide support for WordPress sites including plugin and API integrations, functional builds, template modifications and custom feature development.
- Build stand-alone high traffic web apps for Vision Express using the CodeIgniter framework.
- Implement design changes ensuring clean, effective user experiences and mobile responsiveness.
- Using Git and SVN for version control, deploying builds on both internal servers and google cloud compute.
- Pick up libraries and languages like Perl where needed to meet project requirements.
- Through experience and mentorship, learn multiple aspects of web development and best practices.

Non development 1991 - July 2021

Before beginning my career as a developer, I studied mechanical engineering at Sussex university then worked in property management and customer service.

- **NHS test and trace contact agent** Nov 2020 - Feb 2021
- **Concierge** Nov 2018 - Mar 2020
- **Courier** 2016 - 2018
- **Front of house supervisor** 2014 - 2016
